RE: ChaffHaye LLC

Mr. Cuellar,

The Alfalfa product produced by ChaffHaye Inc. located at 1400 South Main in Del City, Texas has been deemed to be weed free. The product was tested by the California Department of Food and Agriculture's Analytical Chemistry labs on March 8, 2002 and no viable seeds were found. These results are sufficient for Nevada's Weed Free Forage Certification Program. Because of the fermentation process associated with the production of ChaffHaye, the Nevada Department of Agriculture approves the product and includes it as certified within their certified weed free forage program.

This letter shall serve as certification that ChaffHaye complies with the requirements of the Nevada Certified Weed Free Forage program. This certification shall remain in effect until rescinded by this office.

If there are any additional questions or comments, please contact me at (775) 688-1180 ext 269.

Sincerely,

Tina Kadrmas
Nevada Department of Agriculture
Cooperative Weed Management Area
And Weed Free Forage Coordinator
