

Chaffhaye Testimonial

April 11, 2009

Our mustang is 18 years old and she colics every fall and spring as the seasons change. After Angel suffered colic this last time in March, we transitioned her to Chaffhaye. She loves it!! She raises her head and shows her teeth to show how happy she is at each feeding. She looks better, is healthier and won't get anything else again.

Thank you,
Christine & Matt Harris
(& Angel, too)
