

Simply the Best!

"I have changed my whole barn over to Chaffhaye and believe it will be the feed of the future. Since doing so, my horses have experienced greater health and performance. I truly believe my recent successes in both the hunter and jumper arenas are directly related to my use of Chaffhaye."

**Morley Abey
Joie Gatlin-Morley Abey Show Jumping Inc.

"I can haul it, stack it, feed it, and our kids can easily handle it as well," she says. "Our horses love it, and thrive on it. We have some older horses that have been donated to our program, and they are great with the kids ... but sometimes it's a challenge to keep the weight on them. Not with Chaffhaye! They love to eat it, and they do really well on it."

**Terri Sturn
Executive Director of RISE
Tehachapi**

"Ponies are more prone to founder than are horses. Good quality hay should be the staple of your pony's diet. The number one rule is the hay MUST be of good quality. Determining the quality of your hay is not easy and it varies widely depending on the time of year. That is why we feed Chaffhaye. Chaffhaye is a consistently good quality alfalfa hay that is cut at its peak. "

**Priceless Ponies
Temecula**

"Our horses are fed Chaffhaye exclusively and are the healthiest and happiest they have ever been."

**Living Dreams Equestrian Center, Featuring Andalusians and Friesians
Santa Cruz**

"Chaffhaye is superior for feeding because of it's consistency, digestibility, and the fact that there is no waste!" He recommends it for feeding to horses that tend to colic and to those with emphysema, since it is dust free. "

**Dr. Naugle, DVM
Colorado Springs, CO**

"Chaffhaye is a superior product that is totally consistent. You see and feel results in as little as 30 days. My horses love it!"

**Becky Smith
Freelance Show Jumping, Inc.
San Juan Capistrano**

“Chaffhaye has not only made it easier to manage my horses well being but also my time spent caring for them. I have less manure, hence clean up, and with the storability, I have less trips to the feed store and time on the phone tracking down hay. With your product, my horses are healthy and happy at the same time, and that makes me happy.”

High Hopes Farms
Bells, TX**

“Sierratino, stallion standing at Easy Does It Ranch, used to suffer from colic and heaves before beginning his new feeding program with Chaffhaye!”

“These beautiful AQHA horses, bred by Easy Does It Ranch, Westcliffe, CO, were raised on Chaffhaye.”

**Easy Does It Ranch
Westcliffe, CO**

“I no longer worry about colic, dry coughing, hay blowing away to the neighbors or down my shirt, fires at the barn, moldy hay, sticks or dead animals in my hay. My husbands gelding is looking and feeling better than he has in a couple years without having to feed several supplemental grain products. My miniature horses and goats no longer have those ugly hay bellies and no wasted hay. Best of all, I can handle the 50 lb bales myself.”

**Kay McCuin
Roc N Ewe Ranch
Fernley, NV**

“We are using the Chaffhaye with our Shetland pony’s and miniature horses. I can tell you this, they love it. You have a superior product and I can’t imagine anyone not realizing the benefits of Chaffhaye. I really shouldn’t share this with you because I consider using Chaffhaye as one of the secrets of my feeding program. But seriously, use this letter as you deem necessary as I only want the best for these little horses...no matter whose horses they are. Thanks for a great product.”

Navasota, TX**

“Serpentine Farm is a small breeding farm in the foothills of the Sierra Nevada mountains of Northern California. In the heart of the historic gold producing Mother Lode, the farm boasts lush pastures replete with quality Andalusians, European Warmbloods, and Iberian Warmbloods. We feed Chaffhaye, fermented alfalfa forage, that is highly digestible and nutrient dense. “
