

Chaffhaye Testimonial

April 15, 2009

John Hays
Alamogordo, NM

I have been feeding Chaffhaye to Dr. Hays' horses for three months and it works very well. When I started to feed the Chaffhaye, I was used to the old ways of feeding. It just seemed to me that 1/3 of a bag was just not enough feed, so I fed 1/2 of a bag. All was good, the horses were gaining weight. They lost their hay belly and were doing wonderfully. Then I realized that they were putting on a lot of body weight, more than they needed. So, I decided to cut them back to the recommended amount of feed. The 1/3 of a bag per day is working out just right. The horses are now happy and healthy. I am happy to be feeding the Chaffhaye products.

Sincerely,

A Chaffhaye Buyer
