Dear Kimber.

After 4 years of using Chaffhaye for our horses on our respective ranches: Three Bar S Ranch in Pioneertown, CA and Morning Star Ranch in Yucca Valley CA, owned and operated by Jill Endicott and myself, respectively, I felt it appropriate to tell you how very pleased we are in the results of feeding Chaffhaye to our animals.

Over the four years of using Chaffhaye, we have gone through more than 2,700 bags of "Pasture in a Bag". Our horses look and perform better than with traditional hay. There is no waste, less manure and the ease of storage has proven to be a big plus. Also, being in the desert causes some horses to colic on traditional dry hay, pellets or cubes. With Chaffhaye, we do not experience that problem.

A competitive company to Chaffhaye sent Jill and I free samples of their product. It did not even come close to the texture, moisture and acceptability for the horses as Chaffhaye.

Please feel free to give our respective phone numbers or e-mail to anyone contemplating using Chaffhaye. We would be happy to share our satisfaction in using your product.

Sincerely,

Michael Alford
